

LAD-17 Concrete Base for Smappee EV Base

This concrete base for easy installation in soft ground is made especially for the Smappee EV Base product range. Easy to handle, installation by one person.

Specifications

- Dimensions: 62x16,4 / H10cm
- 4x M10x300 threaded rods with 8x hexagon flange nut, on which the Smappee EV Base footplate can easily be mounted.

We recommend adding using additional concrete around the base.
